

# TAKE A SAFETY SECOND

Topics: Safety Meetings, CSA Maintenance, Personal Conveyance

## Personal Conveyance

Personal Conveyance may not be used to extend beyond the legal drive time. The block from 1700 to 2300 indicates where the driver was in personal conveyance. He violated both the 11 hour & the 14 hour rule by driving over 13 hours and working beyond 14 hours. He was cited for false logs.

## Accident Picture(s) of the Week

The driver had a 10-hour break and only drove for about 3 hours before admitting to falling asleep and flipping over the RV.

**SAFETY KEY:** Do no push yourself beyond your limits. It is NOT worth the risk.

The driver picked up the Mobile Home and struck a wire at the Shipper's Location.

- Did the driver measure the load or just assume he knew the height?
- Why wasn't the driver prepared to stop for the low wire?

**SAFETY KEY:** Treat EVERY load like it is your first! Don't assume and don't be complacent.

## Safety Meetings

The 1st quarter On-line Safety Meeting is available on DriversIG. The 18-minute meeting contains important information for drivers across all business units. Please make sure the drivers take the time to watch the safety meeting ASAP to raise their safety awareness level.

## CSA Maintenance FAQ's

1. Call immediately as soon as the officer finishes the inspection.
2. Forward all documents to [compliance@bennettig.com](mailto:compliance@bennettig.com) and/or FAX: 877-564-7662.
3. Repairs for any violations must be sent within 48hrs after inspection date.
4. Follow up with a 90 day Maintenance Report showing repairs performed and receipts.
5. Help us by doing this immediately following any and all roadside or fixed site inspections.
