Bennett International Group, LLC selects Chief Information Officer

May 1, 2008 (ATLANTA)

Bennett International Group, LLC announced today its appointment of Ken Ravenelle as Chief Information Officer (CIO). In this capacity, Ravenelle will be responsible for all aspects of Bennett's computer and information systems.

Mr. Ravenelle has more than 20 years experience as a founder and key executive in several ground breaking technology companies.

"Ken Ravenelle is a proven innovator and leader in the Information Technology community," said Marcia Taylor, Bennett CEO. "We are proud that he has joined us, and I am confident in his energetic leadership, expertise and deep appreciation of all that is required to remain ahead of the curves on the information highway."

Ravenelle brings to Bennett much experience, including tenure as:

- Senior Vice President of Software Development and Senior Director of Software Technology with Samarion Incorporated of Ridgeland, Mississippi.
- Executive VP and COO of 2C Computing where he led strategic technology initiatives resulted in co-patents on USB, PCI, PDAs wireless protocols, and Distributed-Computing Split-Client PCs, which resulted in his overseeing the sale of this technology to Dell Computers and Motorola.
- Senior Director and VP of Internet Technology at Motorola where he was responsible for Internet architecture and the development of Motorola's World-Wide Internet e-Commerce technology.

- Senior Director of Strategic Software Technology and Senior Consultant and Advisor to the CEO at Intel. In this role he was credited with driving strategic technological development of PCI, Plug n' Play, Pentium, Internet OSs, and related technologies. He was also a strategic member of the team that created the "Intel Inside" campaign as well as naming the Pentium generation of microchips.

"I am delighted to be a part of a company that values integrity in all things, that is growing the market place and that offers me the chance to work in a challenging yet rewarding environment," said Ravenelle. "I am looking forward to synchronizing Bennett's technology needs to the fast-paced, multimodal transportation platform this company provides."

Mr. Ravenelle earned his Master of Science in Computer Science from Boston University, and he received Bachelor of Science in Computer Science from the University of Massachusetts. Currently, Ravenelle is a computer science Ph.D. candidate at Boston University.
