BENNETT ON-SITE SERVICES, LLC  
OILFIELD SERVICE & SUPPLY  
**RIG MOVING**

**ONE CHOICE**

**MANY SOLUTIONS**

WWW.**BOSSOILFIELD**.COM

BOSS Crane & Rigging fully endorses the national certification program offered by the National Commission for the Certification of Crane Operators (NCCCO)

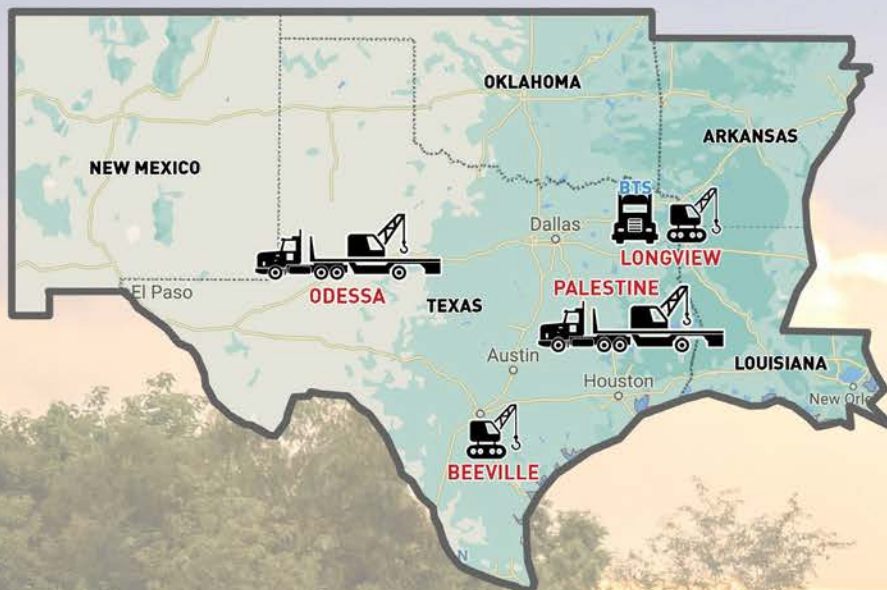

## Your Trusted Partner for Reliable Rig Moves

Moving on-shore drilling rigs efficiently requires precise scheduling, coordinated labor and expert knowledge of the oilfield. BOSS Oilfield Service and Supply's highly experienced, safety-conscious truck drivers, crane and forklift operators, and helpers are all supervised by truck pushers who have decades of rig moves under their belts. Together, they handle the complexities of moving oil pipe, derricks, pumps and machinery from old site to new site so you, the customer, can focus on what you do best, operating the rigs. Our transport fleet includes heavy haul trucks and trailers, cranes, forklifts, winch trucks, and experienced personnel with ongoing equipment & safety training. BOSS will coordinate complex transportation from the U.S. highways to farm-to-market to remote access roads, supported by teams of experts on both ends.

## Service Areas

BOSS Oilfield Service & Supplies focuses on moving drilling rigs throughout Texas, New Mexico, Arkansas, Louisiana, and Oklahoma. We pride ourselves on safe and fast turnarounds.

## Our Services

At BOSS, you get fast response times for rig moves from 100 feet to 1,000 miles. We move 15 to 20 rigs a month and have the capacity to move multiple rigs at a time. BOSS has an annual permit for up to 120,000 pounds and solid relationships with Texas' permit officials to facilitate even larger loads.

- Logistical planning and execution
- Fast response rate
- Extensive transport fleet
- Labor for your rig move
- Capable of moving multiple rigs at one time
- Moving all oil rig pieces from one site to the next

## Our Equipment

- 80+ years of rig moving experience
- A team of dedicated truck pushers, drivers, equipment operators, and swampers
- Safety is Priority One
- Expert project planning
- Efficient execution minimizes downtime
- End-to-end project management and coordination
- Full service permitting and DOT management
- We have an annual permit for up to 120,000 pounds

At BOSS, Safety is Priority One. We are compliant with OSHA and FMCSA standards and foster a strong culture of safety. We conduct tailgate safety meetings every morning and critical lift safety meetings whenever complex movements are required. All of our employees must wear personal protective equipment, including hard hats, safety glasses, steel-toed boots, and gloves.

Over the past 20 years we've moved hundreds of drilling rigs for the premier drilling companies in our area. We have some of the most experienced employees in the industry. While the BOSS Oilfield Service and Supply name is new, our staff is anything but. The BOSS team has kept up with oil rig innovations that continue to reduce rig move cycle time.
