

Text, talk to, or video chat with
One to One Health clinicians, 24/7, in <5 minutes.

No app. No bots. No kidding.

TextCare supports the coordination of in-person care for imaging, acute, preventative, and specialty care. One to One Health's dedicated customer success team will assist with custom engagement and education campaigns. Our team is here to support you and your organization's unique needs.

Common TextCare inquiries:

What do I have?

Chat about symptoms, upload pictures or one-click into a video visit with a provider

Should I go to the ER?

Care coordination to avoid long waits in the Urgent Care or unnecessary, costly trips to the Emergency Room

Who should I see?

Referrals for specialist treatment to high-quality, high-value local providers
