Driver of the Year 1989
 – Ricky Goodman (left);
 President of B.M.E.
 Marcia Garrison (center);
 and Gaye Garrison

Driver of the Year 1990
 – Robert Newton (right)

Your cooperation
 and support of this
 meaningful event will

show that the trucking
 industry is proud of our
 Desert Storm troops.

Driver of the Year 1989

Ricky Goodman has been contracted to BME since January of 1983. He lives in McDonough, GA. He is the recipient of a seven year safe driving award and primarily operates in the southeast. Ricky is a very meek and mild tempered person who is genuinely concerned about the image of the professional truck driver. Bennett Motor Express, Inc. appreciates owner/operators such as Ricky since he does his job day in day out and is frequently requested by the shippers because

they know he'll deliver
 their load of freight
 safely.

Driver of the Year 1990

Robert Newton has been contracted to BME since July of 1987. He lives in Butler, GA. He is the recipient of a three year safe driving award and switches back and forth from flatbed to van freight. He is a very people oriented person who enjoys this profession because he can meet different people from all parts of the country. Robert is greatly respected by the folks at Bennett Motor Express, Inc. due to his positive attitude and never ending willingness to help anyone in need of assistance.

March 8, 1991 has been designated as Salute Our Troops Day in appreciation of the men and women serving the USA in the Persian Gulf. I would like for the whole Bennett organization to participate in this event to show our support of our fellow Americans, who have left their homes and loved ones behind to answer the call from their country.

We all can participate by driving with our headlights on all day and displaying the colors of red, white, and blue somewhere on our vehicle, whether it be an American flag or ribbons. I ask all Bennett offices to proudly display the American flag.
