

DATA CENTER TRANSPORT & PROJECT MANAGEMENT SOLUTIONS

As demand for cloud services, AI, and digital storage accelerates, the need for reliable, on-time delivery of data center infrastructure has never been greater.

Bennett brings specialized transport expertise and trusted project management solutions to keep mission-critical projects on track. From hauling data center components to providing onsite coordination, we prioritize data center projects to ensure they move forward safely, efficiently, and without costly delays.

- 50+ years of proven expertise
- Asset-based transportation carrier: large enough to serve, small enough to care
- Partnerships with leading data center contractors and suppliers
- Onsite expertise that prevents delays
- Specialized trailers and equipment for oversize, overweight loads
- Transparent, claim-free execution
- Lay down - storage - distribution yard support services with nationwide coverage

DATA CENTER TRANSPORT & PROJECT MANAGEMENT SOLUTIONS

POWERING CONSTRUCTION NATIONWIDE

Bennett has built a strong reputation in the construction industry, partnering with national EPC firms and leading data center contractors across the U.S. Our experience spans projects in **Texas, Oklahoma, Virginia, Ohio, Georgia, Mississippi, Arizona**, and beyond.

With a modern fleet of specialized trailers, skilled drivers, and proven logistics processes, we deliver generator sets, tanks, enclosures, and other critical components safely, efficiently, and on time.

Our proven reliability drives growth. One partner increased deliveries from 160 to over 500 units in a single year by trusting Bennett to manage every transportation detail with precision.

SPECIALIZED EQUIPMENT FOR COMPLEX LOADS

Every project starts with thorough planning - site walks, route surveys, and safety reviews - to spot challenges early and ensure safe, efficient delivery. Clear communication through shared schedules, photos, and real-time updates keeps clients fully informed.

When heavy haul or lift expertise is needed, our sister companies **BOSS Heavy Haul** and **BOSS Crane & Rigging** provide specialized trailers, cranes, and rigging equipment.

With decades of experience, owned equipment, and trusted state relationships, Bennett stands apart as the partner clients rely on for mission-critical success.

TOGETHER
WE CAN MOVE ANYTHING
